This amendment is in response to the Office Action mailed September 24, 2002 in the above referenced application.

In the Claims:

✓
No claim amendments are proposed herein. All pending claims are presented below for your convenience.

1. (Previously amended) A gas delivery metering tube for delivering a gas, comprising:
at least one innermost and outermost axially aligned, elongated, nested tubes having an effective annular space formed between said at least one innermost and outermost nested tubes, said tubes each having two ends, said innermost tube being attached to a gas supply at one end and capped at the other end;

one or more arrays of orifices formed in each of said at least one innermost and outermost nested tubes and extending along the substantial length of each of said tubes;

wherein the one or more arrays of orifices formed in said innermost tube establish a substantially uniform backing pressure along substantially the length of the innermost tube, thereby promoting substantially uniform delivery of the gas out of the orifices in the outermost
